## ABOUT

16 Girls Ministry Leaders and Influencers across the country came together to collectively share their teaching and craft discipleship questions to share for free with girls, moms of girls, college girls, and women for a unique season that we are all finding ourselves in.

The challenge was put out there. "What would happen if we all came together in this last season of 2020 and focused NOT on the controversies in the news and in our communities, but just committed to be in His Word with other girls, moms, college girls...women?" And we all signed up for one chapter of a book of The Bible. We chose 1 Corinthians as the book we would walk through these 16 weeks with.

Why 1 Corinthians? Well because it's addressing the need for unity in the church. Also, the reason there was a lack of unity had to do with pride. I believe unity and pride are something that we as humans are struggling with right now. I love what this quote says: "At the heart of this book is the reality of the cross and resurrection. Paul admonishes this church to return to the logic and pattern of the gospel, so that pride is replaced with servant-hearted love and unity."

Imagine what would happen if girls and or moms with their daughters were focused on this message during this global pandemic. Imagine what He might do in and through them as they come into 2021! Gives me chills to think about!

## STARTING THE STUDY

To access the study, go to [www.girlsministrycollective.com](http://www.girlsministrycollective.com). Every Tuesday, beginning September 1, there will be a new chapter released on the website. There are 16 weeks in this study. Each week, you will hear from a different Girls Ministry Teacher as she unpacks that assigned chapter. This is not going to be a verse by verse intensive. This is just 10 minutes each week, of what God brought to that particular teacher's attention as she spent time in her assigned chapter. Then following the video, you can download the study guide to go through the 5 discipleship questions that go along with the teaching video.

Included with each week are Bible Reading Pages that help guide each person throughout the week to spend time on their own, reading and meditating on that week's assigned chapter. It is our hope and prayer that you and the others that join you in this study will have spent 16 weeks learning some Bible Study Habits and enter into gospel conversations with each other.
